SOIL PICK

SP80, SP125, SP160

QUALITY ENGINEERED. QUALITY BUILT. QUALITY SURVIVES.

ABOUT

Available in three models, the SP80, SP125 & SP160.

The Soil Pick loosens soil for excavation without risk of damaging buried utilities.

The Soil Pick weighs around 3kg (6lbs) and has zero hand/arm vibration and can be used for extended periods of time without fatigue.

The Soil Pick is ideal for utility contractors and arborists.

SOILPICK PRO

The Soil Pick Pro is the model of choice for those using accessories. The barrel comes in two pieces.

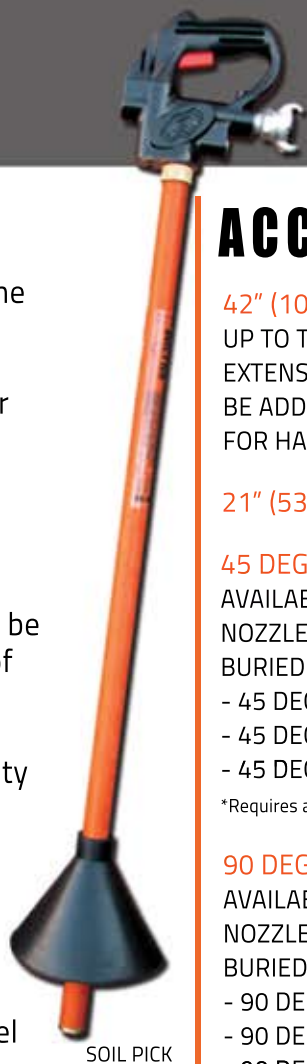

- 36 1/2" (93 cm) Extension Barrel with a 2 1/2" (6 cm) Interchangeable nozzle.

The Soil Pick Pro is available in three models, the SP80PRO, SP125PRO & SP160PRO.

Benefits of the PRO:

- EASY CHANGE OF ACCESSORIES
Just simply unscrew the end piece and screw in an attachment of your choice.

- COST EFFECTIVE
The end piece can easily be replaced at a fraction of the cost of a new barrel.

ACCESSORIES

42" (106 cm) EXTENSION (03848)

UP TO THREE 42" (106 cm) EXTENSIONS CAN BE ADDED TO THE SOIL PICK FOR HARD TO REACH AREAS.
