

# WS35H

## WIZARD SCREED

QUALITY ENGINEERED. QUALITY BUILT. QUALITY SURVIVES.

The WS35H Screed is a flexible, petrol driven, walk-behind pedestrian screed and levelling device designed for one man on-site operation to produce a smooth aggregate free finish of concrete without the requirement to strike-off formwork.

The WS35H screede provides functionality and performance at a highly competitive and economical price.

The blades for the WS35H are also fully interchangeable with the magic screed product line.

Alternative blade lengths, ranging from 2.44m/8ft to 16ft are available.

<b>ENGINE</b>	Honda Petrol
